

NEW PRODUCT RELEASE

SED 62-3Gtm

network compatible back up unit

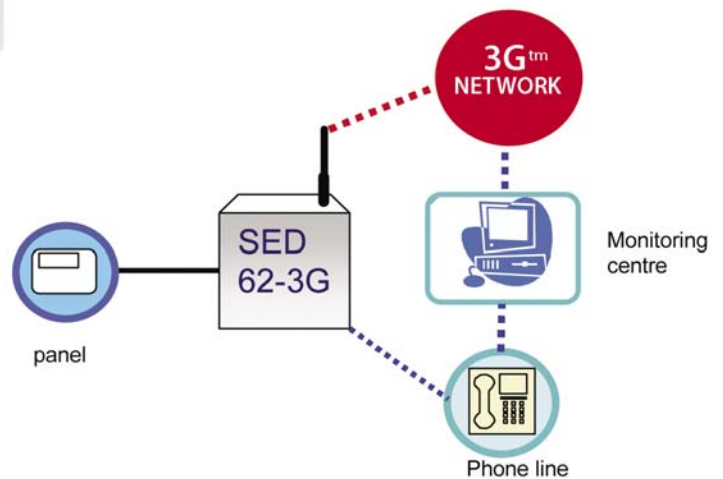

Need a GSM back up system to work where you don't have GSM signal but have 3Gtm network coverage

APPLICATIONS

The SED 62-3Gtm from Sec Eng Systems operates on the 3Gtm network and now performs as a multi path back up system on 3Gtm with fall back to GSM if available.

The new SED 62-3Gtm will now allow you to cover country areas on the 3Gtm network and other compatible networks.
