

SED-EGIS MINI

Lone Worker / Man Down Personal Duress Device

The EGIS Mini is a feature packed small and lightweight personal duress device which utilizes the full suite of Sec-Eng Systems monitoring tools.

Featuring a rugged design with an IP67 soft touch enclosure, the EGIS Mini is designed to meet Australian conditions.

The EGIS Mini can be used as a stand-alone system that can send SMS and make voice calls. It also has the ability to communicate with the Pegasus (Sec-Eng systems monitoring platform) and provide contact ID alarms.

FEATURES:

- Waterproof IP67 rating
- 4G mobile network connectivity
- Tilt and movement detection
- Soft touch design
- Coloured LED indicators
- Comes with lanyard
- Smart USB charging base
- Small and lightweight (only 54g)
- Long lasting battery life of 30hrs
- Bluetooth connectivity
- Voice warnings and prompts
- Full 2-way voice inbound and outbound calling
- Ability to SMS 10 mobile numbers with GPS location
- Ability to show location & poll in a real time via Pegasus
- Optional belt clip available

SED-EGIS MINI

Lone Worker / Man Down Personal Duress Device
